

# SOFT SPOT

## High Temperature Rinse Aid

### PRODUCT DESCRIPTION & BENEFITS

**SOFT SPOT** is a concentrated formula for use with automatic rinse injectors in dishwashing machines. It will prevent water spotting of dishes, glassware and silverware when air dried after final rinse. Water conditioning materials reduce surface tension to provide rapid draining and rinsing. Completely eliminates water droplets from forming on surface and speeds air drying. **SOFT SPOT** is stable at high temperature usage conditions and is compatible with both chlorine and quaternary ammonium products.

### DETAILED USAGE & INSTRUCTIONS

**HYDRAULIC AND ELECTRIC RINSE PUMPS:** Insert feed tube into shipping container and adjust metering valve to 300 ppm. Upon running dishes through machine, check for drainage. Adjust until no water breaks appear on dishes.

**NOTE:** Not for use in bottle type displacement injectors where phase separation is necessary.

Refer to the product label or contact a Cynamic Chemical Co. professional for additional usage instructions.

### TECHNICAL SPECIFICATIONS

Appearance / Color .....Blue  
Odor .....Mild  
Shelf Life .....2 years  
Solubility in Water .....Complete  
Foaming .....None  
pH .....3.0 ± 0.5  
Specific Gravity .....1.61 ± 0.005  
Storage Temperature.....45-110 °F

### FEATURES & BENEFITS

- Economical
- Effective
- Fast-Acting For Rapid Drying
- Safe For Use In Expensive Equipment
